Guru99 Bank Automation Testing Framework (GDT-2)

[GDT-9] Deposit Module - HTTP 500 Error on Successful Deposit Submission Created: 07/Jun/26 Updated: 08/Jun/26 Due: 16/Jun/26

Status:	To Do		
Project:	Guru99Bank Defect Tracking		
Components:	None		
Affects versions:	None		
Fix versions:	None		
Parent:	Guru99 Bank Automation Testing Framework		
Type:	Bug	Priority:	High
Reporter:	Nitesh Kumar	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		
Attachments:	Screenshot 2026-06-07 155351.png Screenshot 2026-06-07 155412.png		
Rank:	0j00001r:		
Start date:	07/Jun/26		
Sprint:	GDT Sprint 1		

Description

While performing a deposit transaction, the application displays an HTTP 500 Internal Server Error after submitting valid deposit details. The transaction process fails and the user is redirected to an error page instead of receiving a successful deposit confirmation.

DEFECT REPORT 2

Defect Identifier

GDT-14

Defect Summary

Future Date of Birth is Accepted

Test ID

TC_CUST_014

Test Case Name

Validate Date of Birth Field

Module Name

New Customer Registration

Reproducible Steps

1. Login to Guru99 Bank application.
2. Navigate to New Customer.
3. Enter all mandatory customer details.
4. Enter a future date in the Date of Birth field.
5. Click Submit.
6. Observe the application behaviour.

Attachments:
 Screenshot 2026-06-08 174652.png

Rank: 0j0002v:

Start date: 08/Jun/26

Sprint: GDT Sprint 1

Description

While creating a new customer, the application allows users to enter a future date in the Date of Birth field and successfully register the customer. A future date cannot be a valid birth date and should be rejected by the system.

Steps to Reproduce:

GDT-13

Defect Summary

Password Field Accepts Weak Passwords Below Minimum Length Requirement

Test ID

TC_CUST_013

Test Case Name

Validate Password Length Requirement

Module Name

New Customer Registration

Reproducible Steps

1. Login to Guru99 Bank application.
2. Navigate to New Customer.
3. Enter valid customer information.
4. Enter a password containing only 3–4 characters.
5. Submit the form.
6. Observe the system response.

Original estimate:	Not Specified		
Attachments:	Screenshot4.jpeg		
Rank:	0j0002n:		
Start date:	07/Jun/26		
Sprint:	GDT Sprint 1		

Description

Description

While creating a new customer, the Password field accepts passwords that are shorter than the minimum recommended length. The application allows users to register with passwords containing only 3-4 characters, which poses a security risk

DEFECT REPORT 4

Defect Identifier

GDT-15

Defect Summary

Invalid City and State Combination is Accepted

Test ID

TC_CUST_015

Test Case Name

Validate City and State Mapping

Module Name

New Customer Registration

Reproducible Steps

1. Login to Guru99 Bank application.
2. Navigate to New Customer.
3. Select a valid State.
4. Enter a city that does not belong to the selected State.
5. Fill in the remaining mandatory fields.
6. Submit the form.
7. Observe the application behaviour.
